

# KAMPEI! THE LYCHEE-TINI

What you need:

Put a martini glass in the freezer. Not one of those big boys. You want to be able to stand later. Also put your martini shaker in there.

After things are cooled off, into the shaker with some big ice cubes measure:

- 1/2 oz lemon juice (from a lemon, not reconstituted.)
- 1 oz lychee syrup (you should get the can that says lychees in heavy syrup.)
- 1 oz “enhanced” triple sec (see below.)
- 2 oz Hendricks gin
- dash of bitters
- lemon peel (use your carrot peeler on the lemon to cut a thin peel.)
- Shake it shake it shake it!

Into your chilled glass put a single lychee fruit and the lemon peel. Pour.
